County Rock Crusher. The county rock crusher has been taken to Olney and is being set up for work. Mr. Johnson, an Astoria machinist, is making the necessary repairs to the crusher and engine. A force of men are at work grading the road to the site selected and as soon as completed, the crusher will be started up and a large portion of the Nehalem road covered with crushed rock. The location selected abounds with large quantities of the very best rock suitable for roads. A. S. Miller will probably have charges of the engine. It is expected that work will be commenced about the 19th of next month.

Greater Bargains than ever will be given this week as we are determined to clear them out. Come and share them at C. H. Cooper's great sale.

Road Meeting. A road meeting, attended by a large number of the settlers of Nehalem was held at Grand Rapids last Saturday. There appears to have been some dissatisfaction at the expenditure of road money, and what was deemed an unequal distribution. James Jamison, road supervisor explained the situation and after some discussion, he agreed to post a statement every month showing what disposition was made of the road funds. The residents of the Nehalem are interested in securing good roads, the only drawback being differences of opinion as to the best methods of improving and proper distribution of funds.

Astoria Talent. The Astorian is just in receipt of a new and dainty theme of dance music, issued by the Success Music Company, of Chicago, entitled "Heart's Desire," the measures of which are attributable to the well known musical ability of Miss Margaret Busby of this city. The piece is written in waltz time, and is very pretty and simple, and shows distinct merit in its numbers.

Mack, of that family, and now residing in Paris, France, and at her orders the old property will be entirely renovated and improved and made serviceable for use in a commercial sense, according to plans involving a very respectable sum of cost, but not yet fully drawn, but which will comprehend its rebuilding and readjustment to business uses.

At His Southern Home. The Astorian was the pleased recipient yesterday of a note from Dr. Bayless T. Earle, who is now at his home near Spartanburg, South Carolina, and glad to report that the doctor is apparently enjoying everything in sight as should be the case with a man just arrived on the home soil after an absence of six years. He says even the "po' white trash" down there are evidently flourishing. It is pleasant to know he is entirely happy himself, and when he gets ready to return, he will find a cordial welcome awaiting him at the old stand near the mouth of the Columbia.

Under Arbitration. For some time past the Astoria Water Commission has desired to purchase a high service site, comprising about twenty-two acres of land, from Dr. Alfred Kinney, and lying a few miles southeast of the city. The commission offered the owner the sum of sixty dollars per acre for the property and were met with the demand of the doctor in the sum of one hundred dollars per acre, from which estimate the owner has not receded. But the matter has finally drifted to a point where arbitration has been invoked, County Assessor T. S. Cornelius, acting for the water people, and Brennan Van Dusen for the owner of the land, a provision having been inserted in the formula for arbitration that the third man should be named if these two could not reach a conclusion in the premises. Messrs. Cornelius and Van Dusen met yesterday at the office of the water commission at the city hall to review the whole situation and to reach an acceptable basis if within the possibilities, and will report in due season to their principals.

The contract for the construction of a wagon shed and for making some alterations in the stable at Fort Stevens was awarded to E. Gustafson, and the contract for the erection of searchlight shelters at Fort Stevens and Columbia was given to William Miller.

TEAMSTERS TO STRIKE.

Chicago Truck Drivers Union Want Higher Wages.

CHICAGO, March 26.—Chicago will see a second big teamsters' strike if the plans laid by the Truck Drivers' Union at a meeting held yesterday are carried out.

The drivers, backed by their international organization, unanimously voted to push their demands for increased wages and better conditions. The Chicago Team Owners' Association as firmly has decided to resist. Neither side sees any common ground upon which to meet or a possibility of a compromise. The truck drivers local with 800 members, is the strongest in the union in Chicago.

The demands of the teamsters have been in the hands of their employers for more than two weeks but it was not until yesterday that the workers themselves admitted the possibility of a strike. The obstinate struggle for seventy days' duration which came to an end last July makes the prospect of a similar strike unwelcome to both employers and men, and until the result of the referendum vote was announced it was believed that the differences could be patched up.
